GREETINGS from MONTANA,

Another year is almost gone and a new one on the way. I always look forward to new calendars with wildlife and great scenery. I also use them to record my gardening activities. I've been amending the soils in two of our gardens and the results were worth the effort. The soil in our main garden is very fine sand and did not hold moisture. Twenty loads of partially composted horse manure helped retain moisture and the loose mulch on top controlled early weeds.

We are still building planting stock for many varieties and should be able to be up fifty varieties in 2018.

**OUR GUARANTEE:** We guarantee our tubers to have a viable eye and be true to variety. When you receive your order, inspect the tubers. If you have any problems, let us know as soon as possible and **before planting**. We will gladly replace tubers or refund your money, however we may require tubers be returned.

**BONUS TUBERS:** one for each \$30.00 of tubers purchased (**shipping not included**); **our choice and dependent upon supply**.

Cultivars are listed with a combination of classification number followed by position in group, name, size, form, color, plant height, year of introduction, and other info. You will find many of the **“FABULOUS FIFTY”** and **“CREAM of the CROP”** and good old reliables.

Confirmation will be sent as soon as possible. We ship **Priority Mail** within the U.S. on Mondays and Tuesdays starting April 1 unless otherwise requested. **Shipping and handling rates** are at bottom of order form. Make payment by check or Money Order **payable** to Michael Valler – **NO Credit Cards**.

We use the following abbreviations: \*=Fabulous Fifty                      +=Cream of the crop
